[A Quick Update On The One Taken At Day's End](#)

Visit us at CompletePackaging.co.uk

Complete Packaging – Packaging Solution Specialists.

When Rob White and Mark Jones embarked on starting Complete some fifteen years ago, it was born from a very simple philosophy; they treat every customer in the way they would want to be treated themselves. Rob had a wealth of packaging experience before Complete was created. Mark had run many fulfilment & distribution operations.

By the time Complete was born, the foundations were already solid for all the services the company was about to embark on. Not that complicated, but if we're all honest it's not the typical experience we get in all business relationships.

Started in a small office with an equally small warehouse, both Mark and Rob worked hard to employ the ideals when looking to attract new clients. Becoming the primary Fulfilment House for all Vodafone's point of sale collation requirements in our first year helped to establish the business. Working alongside Vodafone's chosen Marketing Agency, Complete were tasked with co-ordinating all printers and various suppliers to Vodafone as stock was delivered to our premises - ready for us to collate and sent out to almost 10,000 of the brand's retailers across the UK. Over a 5 year period, literally millions of items were collated, packed and despatched successfully.

Over 50 Vodafone Marketing Campaigns were managed by Complete - and every one on time!

It quickly took the business to the next level and helped it grow - taking on more warehousing and staff too.

Fast forward to today and the same principles are in place. Both owners are still hands on and have a dedicated team of staff committed to the same values. You can't do it without your staff and over the years Complete have been fortunate enough to secure the services of some great people.

Customers ultimately want to be treated well, receive a professional service and always feel they are getting value for money. By listening to our client's requirements, and ensuring they are delivered, we feel gives us a competitive edge.

Custom Bespoke Packaging

Simple and functional, above all it is a totally "touchy feely" experience. Not just the look but how it feels conveys all the messages about the product within the packaging.

At the other end of the spectrum we have helped create some really special and unique forms of packaging.

We work with a range of materials – primarily card and board based, but we also work in plastics and foam.

Wide Ranging, Flexible, Bespoke Packaging Solutions

Large range of boxes from small die cuts to large point of sale units and retail ready packaging. Our experienced and dedicated sales personal will guide you through every aspect of your packaging project, whether it's for a new product or to streamline your existing packaging. As well as an in house design service, Packaging Supplies offer stock holding, remote ordering, stock control and next day deliveries.
